

Speaker Abstracts:

Academic, Scientific & Research Oriented MILLENNIUM DENTAL CONFERENCE & EXHIBITION (Gulf & Asia) - Innovation, Technology, Beauty & Science : Be the Best in Dentistry....

R. Doshi, UK

Award Winning Dentists on Extreme Makeover UK National & International Lecturer (India, Germany, Italy, USA, UAE, Sweden) Have built successful strategies in converting predominantly NHS patients to accept high end private dentistry. That's right, fees that are a multi fold more than what the patients were used to, for their dental care have published articles in many of the dental publications including Private Dentistry, Aesthetic Dentistry, The Probe, Dental Practice and The Dentist. Learn from a dentist who have tried and tested all the strategies in their multiple and different practice types over the last decade

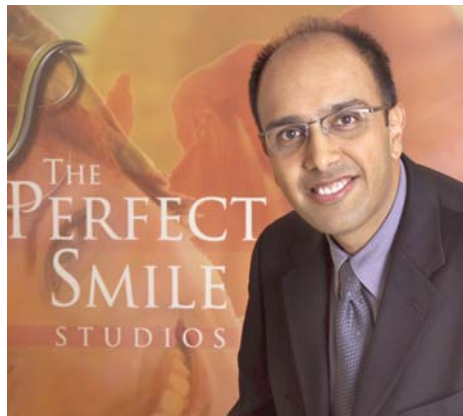

John Wibberley RDT FBIDST, UK

John started his career as one of the first full time students studying for a Certificate in Dental Technology, qualifying in 1978 from Manchester Polytechnic. John's first appointment was in the Department of Prosthodontics at Manchester Dental Hospital.

Eight months later he then moved to North Manchester General Hospital gaining more experience in a maxillofacial unit. After gaining his advanced City and Guilds in crown and bridgework John joined the RAF dental branch in 1980. Leaving the RAF in 1982, John gained valuable commercial experience in several different commercial laboratories and hospitals until eventually opening his own lab, Portland Ceramics in August 1985, specialising in implantology and high quality restorations. In March 2001 Portland Ceramics was acquired by Boots Dental Care. In May 2005, he set up Waters Edge Ceramics and currently employ's 17 full time technicians.

John has travelled extensively attending courses in France, Germany, Italy and Holland and has visited the USA over forty times attending courses. He has also presented to the Association of Dental Implantology, the British Academy of Aesthetic Dentistry and Nobel Biocare World Conference in Las Vegas May 2007.

In June 2005 John was awarded a Fellowship of the British Institute of Dental and Surgical Technologists. He is currently The Director of Education on the Dental Laboratories Association board of Directors.

Dr. Parmar, UK

National & international Speaker : Smile Design Dentistry and Exceptional Impressions, Exceptional Temporisation, Stress Free Cementation and Occlusion in Aesthetic Dentistry, Anterior and Posterior Composite Restorations, Laser Dentistry etc..

Dr. B. Doshi BDS London

Dr. B. Doshi is a leading UK Cosmetic Dental Surgeon, who has worked with TV media on various makeovers, the most popular of them being Extreme Makeover UK. She has also been extensively featured in the National Press including The Times, The Independent, The Daily Mail and various magazines.

She is a Consultant to many businesses and provides help in all the following areas: Practice Profit Solutions, Team Management, Business Strategy, Cost-Effective Marketing, Sales Process Strategy and Wealth Creation.

Her techniques and strategies has increased and optimised revenues for many colleagues. She lectures internationally on various elements of dental marketing and the business aspect of dentistry. She provides the perspective of a practising dentist creating profits in a business.

She is also author to associated articles in many international and national dental publications.

Dr. Bhavna Doshi is also the CEO of Dental WEALTH Builder, which primarily focuses on Practice Profitability and Growth Solutions in dentistry.

She is also founder of Unlimited New Patients, which focuses on How to do Cost-Effective Marketing for Rapid Profit Growth in Dentistry and has established a "New Patient Assessment Process" which increases case acceptances of high fee based comprehensive treatment plans.

DR. IAN WELLINGS, UK

Dr Ian Wellings is the director of Barkhill Dental Clinic in Yorkshire, which is a multidisciplinary, specialist centre of excellence. His early implant education

was conducted at the Medical College of Georgia in 1988-1989 where he met O. Hilt Tatum, Jnr, who became his career mentor. Dr Wellings now has many years of experience in full mouth rehabilitation following closely the 'Tatum philosophy' of Total Patient Care – Total Dentistry.

The Tatum Institute in Birmingham, UK, where Dr Wellings is a faculty member, has a new acronym – NIRISAB - Natural Implant Restorations In Stable Alveolar Bone. The aim is to place implants where the root of the tooth would have originally emerged into the mouth. The key elements to achieve this predictably cover corrections of vertical and lateral deficiencies of bone, using bone manipulation techniques and 'vital grafts', achieved by means of remote incisions, minimal flap retraction and at the same time maintaining soft tissue integrity around implants.

DR. LEE COLLINS, AUSTRALIA

Dr.Lee is a medical physicist, and currently Director of the Medical Physics Department at Westmead Hospital, Sydney, Australia. His interests are in laser and ionising radiation safety, diagnostic radiology, and nuclear medicine.

He has worked in hospitals in Australia and the UK, and during a research appointment in Germany, became interested in laser applications in medicine. He now lectures on medical laser technology, bioeffects and safety, is Chairman of the Standards Australia medical laser committee (which is responsible for AS/NZS 4173 and AS/NZS 3200.2.22), and represents Australia at the International Electrotechnical Commission committee TC76 which develops the international laser safety standards from which national standards are derived.

He is a Fellow and past President of the Australasian College of Physical Scientists and Engineers in Medicine, a member and past President of the Australasian Radiation Protection Society, and the non-ionising radiation ministerial appointee to the NSW Radiation Advisory Council. He has also performed many Technical Expert missions for the International Atomic Energy Agency.

He was made a Member of the Order of Australia in 2003, and is an Associate Professor in the Schools of Medical Radiation Science and Medicine at the Universities of Sydney, Western Sydney and Notre Dame Australia.
